Planning for School Success

Three-Year Planning and Reporting

The purpose of school based planning for success is to enable the school to be focused, successful and effective at improving the performance, skills, knowledge, understanding and abilities of students and to focus the effort of staff and the community on developing the student as successful, rounded persons able to achieve and engage in their community and be fulfilled as a person.

Planning for success enables schools to focus and align the work of staff and the community on agreed goals and objectives intended to ensure the school is successful in meeting the needs and aspirations of students.

Key Principles of an Effective Accountability System

- 1 *Education partners have a shared understanding of and commitment to fairness, openness, respect for diversity and stewardship, key values underlying accountability in education.*
- 2 *The primary purpose of accountability in education is to support the broad goals of education and the diverse learning needs of children and youth.*
- 3 *Information for accountability purposes is gathered in a variety of ways from all relevant sources, and reported and used in ways that respect the limitations of the data.*
- 4 *Sound educational research and practice guide the design and implementation of an accountability system in education.*
- 5 *Accountability in education enhances the capacity of education partners to fulfill their respective roles and responsibilities and leads to sustained improvement of the system.*
- 6 *Each education partner is accountable for those areas of the system within its authority and expertise.*
- 7 *The system of accountability in education is evaluated on an ongoing basis.*
